

BATTLE CODE

Competitive Programming Enthusiasts Assemble!

Introduction

Any technical fest is incomplete without a 'Coding Challenge', isn't it? Here we are with Battle Code, a 2-hour long coding competition based on Algorithms, data structures, and problem-solving. So, all the cyberpunks out there gear up to show your excellent competitive programming skills and win exciting cash prizes.

Prize Money

1st Prize: 2500
2nd Prize: 1500
3rd Prize: 1000

Problem Statement

A competitive coding contest consisting of 2 rounds of 1-hour each. Participants are required to code and submit the solutions of given problem statements in any language of their choice.

General Rules

- The contest will be conducted on CodeChef.
- The participants will be rewarded points based on the number of test samples solved.
- The participants will be ranked as per the number of problem statements solved and ties will be broken by total time taken by each participant.
- Plagiarism in any form is strictly prohibited and can even result in disqualification of contestants involved.
- All decisions taken by the organizing team will be deemed as final, and no more changes will be encouraged.
- Bring your college/student I-Card at the time of competition.
- Decision Taken by Judges will be final and binding for all.
- Any misbehaviour will lead you to disqualification from the competition.
- If less than 50 teams will be registered, then only first prize will be given and if less than 30 teams will register, only two prizes will be given.

Team Specifications

- This will be an individual event.
- Any number of candidates can participate from one college/school.
- Participants are required to bring their school/college ID cards.

- Once registered, the same candidate cannot register with another name for the event.
- Organizers have the right to reject entries for any inappropriate username of candidate.
- Organizers must be notified if a candidate's username has been changed.
